DOESN'T CLEAR IT

Another Arrest in Boston
Murder Case Adds Fur-
ther Complication.

MASON REMAINS CALM

When Confronted by Man Who Sold
the Victims' Watches He is Not
Concerned.

Latest Suspect Says He Received the
Stolen Watches from
Mason.

Boston, Nov. 10.—George L. O. Perry, the negro who pawned the watches taken from the murdered women, Miss Clara A. Morton and Miss Agnes McPhee, declared Sunday that Alan G. Mason is the man from whom he received these articles. Perry was taken to the jail in East Cambridge where Mason, under arrest on the charge of killing Miss Morton, is confined pending a hearing in the Cambridge court. In one of the jail corridors Perry positively identified Mason as the man who had given him the two watches. Mason, by neither look nor word, betrayed any knowledge of having seen Perry before. When questioned by Sheriff Fairbairn, Mason merely said: "I do not know this man; I never saw him before."

During the day Chief Ryan and Officer Argy of Belmont talked with Perry and later State Officers New, Dunham, Dexter and others took Perry to the jail. The callers were shown into the room where Mason and six others were in line. Perry walked straight up to Mason, who was second in position, and, pointing his finger at him, said: "This is the man who gave me the watches to pawn."

He was about to leave the room when Sheriff Fairbairn asked him if he would not like to talk with Mason in order that he might make himself sure that Mason was the man. Perry replied that there was no need of that, as he knew who the man was and had known him for a long time. On being returned to his cell in the police station Perry was confronted by three newsmen, and they identified him as another newsboy.

Another visitor at the police station was Mason's attorney. He was accompanied by a woman. This woman did not see Perry, but it was understood that she had been produced by the defense in the hope of showing that Perry himself or some other negro was the real "Jack the Sluggo." She is one of the women who were followed by a negro in Cambridge several weeks ago. Mr. Ware places no faith in the statement of Perry that it was Mason that gave the boy the watches.

He believes that Perry had to account for his possession of the watches and that the most reasonable way was to say that they were given him by a man already under arrest, and by a man whom he had seen on the streets of Cambridge and could easily identify. The fact that the negro accused Mason of giving him the watches did not give the police any false confidence that the mystery of the series of brutal crimes had been solved.

FATAL BLUNDER

Two Trains Come Together With
Deadly Force Near Indianapolis.

Indianapolis, Nov. 10.—In the dense fog, without warning or premonition, two trains on the C. H. & D. crashed together while running at high speed on the curve just west of Irvington. As a result three men are dead and ten others are injured, some probably fatally. The dead are: George Merriam, telegrapher, Brownsburg, Ind.; John Veltz, crane-man, Dundee, Mich.; Bert Foutz, laborer, Thompson, Mo. It was the old story of a heavy fog and a confusion of orders. A freight train from Hamilton, O., came around the curve at high speed and met a construction train leaving Indianapolis at high speed. Each crew was proceeding under orders that contemplated a clear track. Each was confident that the orders were right, and no precaution had been taken by either. It is said the two engines were not over 300 feet apart when they sighted each other. Their impact was terrible.

No New Peacemakers

London, Nov. 10.—With the exception of some possibly significant decorations to Portuguese and Japanese officials, the long list of his majesty's birthday honors is rather uninteresting. Some promotions in connection with the coronation ceremonies and the South African war, and because of services rendered to commerce and in parliament, are announced. No new peacemakers have been created.

Turn for the Better

Springfield, Ill., Nov. 10.—Prayers for the speedy recovery of Governor Yates were offered in the Springfield churches Sunday. Last night Governor Yates rested easier, and the attending physicians stated that Sunday had been the best day for the patient since fever set in.

Seeking a Battle

Panama, Colombia, Nov. 10.—The Colombian gunboats Bogota and Chucuito have left on a trip along the coast in search of the revolutionary fleet.

FACTIONAL FIGHTS

Their Effects Upon the Returns Are
Noted.

Indianapolis, Nov. 10.—The politicians here who are analyzing the returns from the election last Tuesday point out that it was demonstrated very clearly in two or three places that men who succeed in getting a nomination in spite of the opposition of a majority of their party never fare well. For instance, the defeat of Chas. B. Rogers of Shoals for joint senator of Orange, Martin and Lawrence counties is pointed to as a glowing example. The nomination of Rogers was over the protest of many of the leading Republicans of the district. In Orange county the Republicans split, and held two conventions for the selection of delegates. The result was that there was a feud almost and some disgraceful scenes followed. But Rogers went down to defeat in a district that is normally Republican by several hundred. Had it not been for the factional fighting it is likely that John Chaney of Sullivan would have carried Lawrence county and accomplished the defeat of Representative Miers for congress. In Jefferson county there was a strong opposition to Marcus Sulzer, candidate for representative, in his own party, and when the votes were counted it was found that he had been defeated, although normally the county is strongly Republican. The party leaders are hoping that the defeat of Rogers and Sulzer will be an example by which other counties may profit.

An important announcement was made at the headquarters of the United Mine Workers of America today when it was given out that the assessment of the bituminous miners for support of the anthracite strikers has been raised. This means that nearly 300,000 men will cease giving up 10 per cent of their weekly wages. The assessment was made here at the national convention of the miners July 17, when they met to determine whether or not there should be a general strike. The men have never murmured, but since the assessment was made there has been a steady stream of money pouring into the headquarters here. Hundreds of thousands were contributed by other labor organizations and people in sympathy with the strike, but the burden of the support of the anthracite strike rested on the shoulders of their comrades in the bituminous regions, and how nobly they responded is now a matter of history. One of the remarkable features of the great contest between the miners and the coal barons was the willingness with which the bituminous miners gave up a part of their meager weekly wages.

It is probable that the primary election commission will have another meeting this week. Its sessions were postponed a few weeks ago because of the state campaign, but now that the election is over work will be resumed on the bill. It is predicted that the primary bill will be one of the most important features of the legislature. Many politicians are determined to oppose the proposed reform on the theory that it is not needed or that it would be impolitic, but the chances are that they will either be in minority or whipped into line. However, no bill of a radical nature will pass. It is safe to predict that if there is any further primary election law revision it must be of a broad character, leaving it optional with the counties to nominate by primaries or by delegate convention. What the state may do is to provide a method and throw around it the protection of the law. This will do away with the indiscriminate methods that have resulted in so much corruption, both in the primaries and in the offices.

The quail season began today, and every outgoing train took with it a number of ardent sportsmen, who have found it difficult to wait until they could hunt according to the law. The game laws have been more generally observed during the last two years than ever before, and it is believed that the legitimate class includes a majority of the hunters. It is said that the fields are full of quail.

Desperate Burglars

Pomeroy, O., Nov. 10.—Harry Alleman, who pitched in the Southern League this season and who has signed with Cincinnati for the coming year, was shot and mortally wounded at Mason, V. Va., his home, early Sunday. Alleman had been out with friends and was returning home when he found burglars at work in the postoffice. A sentry on the outside ordered Alleman to halt. No attention was paid to the command and the sentry fired on Alleman, the bullet entering his back and lodging in the left lung. When Alleman had fallen to the ground the robbers took \$980 from him.

Reaching a Crisis

Paris, Nov. 10.—The government is taking precautions to handle another outbreak on the part of the striking miners in case the decision reached Saturday night to continue the strike is followed by violence. The authorities believe that the crisis in the strike is near and that the next 24 hours will settle the question whether the men hold to their decision to continue the movement or straggle back to the mines.

Gen. Wood Returns

New York, Nov. 10.—General Leonard Wood, who went over with General Corbin and Young to represent this country at the German war maneuvers, arrived Sunday on the American line steamship St. Louis.

ANCIENT BANDS A PEST

Organized Bandits in the Philippines
About at the End of Their

Vigorous Campaign Against These
Native Robbers is Now in
Progress.

Manila, Nov. 10.—The government is adopting vigorous measures to suppress ladonism in the provinces of Cavite, Rizal and Bulacan. A zone embracing these provinces and surrounding Manila is the scene of constant petty and sometimes serious disorder. Several armed bands, some of them numbering two or three hundred men, are operating in the described district and have committed various depredations. They find a safe refuge in the mountains. The plan of the government contemplates securing the assistance of the military, which has

BRIGADIER GENERAL G. W. DAVIS.

been inactive since the end of the insurrection. The extent of the army's participation in the work of suppression depends upon developments. It is probable that the military authorities will request the garrisons to protect the more important towns, while the constabulary conduct the field operations. It is thought that martial law in a modified form will be declared and the privilege of the writ of habeas corpus suspended in Cavite province, which has been the home of the ladrones for ages.

Military control of Cavite province is not contemplated. It is intended that the military and civil authorities shall work in conjunction. The belief is held that advantage has been taken in some parts of the island of the complete inactivity of the soldiers, and it is thought that the use of the army by the civil authorities will have a beneficial effect.

The vigorous campaign against the ladrones which has been conducted by volunteers in Bulacan province has resulted in driving many refugee bandits into Rizal, where the campaign is now opening. General Davis is co-operating with Governor Taft. He has strengthened the garrisons in Rizal and is supporting and assisting the native constabulary, which is now a field. The operations in Cavite province will commence shortly.

Boiler Let Go

New York, Nov. 10.—Two men were killed and one of the pumping stations of the city's water supply system in Queensborough totally destroyed Sunday by the explosion of one of two big boilers which furnished power for the pumps. The building was ripped to pieces. Bricks from it flew a distance of a thousand feet or more, while the boiler which exploded was hurled 200 feet from its bed. The other boiler, which was not in use at the time, was lifted from its foundations and thrown 100 feet in the other direction. The body of the engineer was hurled about 150 feet from a spot where he is supposed to have been standing. Scaling of the boiler is supposed to have caused the explosion.

Will See About It

Chicago, Nov. 10.—Senators Beveridge of Indiana, Nelson of Minnesota, Dillingham of Vermont, Bate of Tennessee and Heitfeld of Idaho will leave Chicago tonight for Oklahoma, New Mexico and Arizona to investigate those territories' claims to statehood. The five senators are the members of the senatorial sub-commission on territories, and it is likely that their report will have much weight with the upper house of congress.

Mine Foreman Shot

Wilkesbarre, Pa., Nov. 10.—Daniel Morris, mine foreman for the Susquehanna Coal company who was shot by Patrick Hennessey, a demoted fireman whom he had discharged and refused to reinstate, died in the hospital last night of his injuries. Hennessey is in jail awaiting trial on the charge of murder, and his actions make it clear that he is irresponsible.

Motor Crew in Danger

St. Louis, Nov. 10.—A wagon containing twelve persons was run into by a streetcar at the corner of Jefferson and Howard street last night and eight were injured. The crowd attracted made an attempt to lynch the motorman and car conductor, but the police interfered.

LUCKY HOOSIERDOM

Rich Strike of Iron Ore is Now
Reported.

Sullivan, Ind., Nov. 10.—Iron ore experts from Birmingham, Ala., who have been quietly prospecting in southwestern Indiana and especially in Sullivan county, have made reports that iron ore of a very superior quality and in immense quantities exists along the line of the projected Indianapolis Southern road. Not since the discovery of natural gas in Indiana has any discovery of natural resources been of more importance for the future development of the state. The possibilities of this discovery are believed to be almost limitless.

Their report leaves no doubt that the ore is of a very pure quality and practically inexhaustible. The value of the deposits is placed at not less than \$100,000,000. The experts say that the ore is purer than Alabama ore found near Birmingham, and that it will assay from 60 to 70 per cent pure. Near these deposits are veins of coal, which is almost pure charcoal, and which, the experts say, can be used for smelting purposes without coking, thus causing a large saving in the manufacture of iron and giving manufacturers special advantages over those in other sections of the country where expensive coke ovens must be maintained.

CLOSE CALL

Train Wreckers Had Designs on St.
Louis Flyer.

Austin, Tex., Nov. 10.—The St. Louis flyer to Mexico City over the International & Great Northern, due here at 9 o'clock last night, owes its safety to the fact that a local passenger ahead of it running two hours and a half behind time, crashed into the pile of debris placed on the track presumably to wreck the flyer. The local due here at 6 o'clock did not arrive until a few minutes before 9 last night, and reported that five miles from the city, just in the edge of the mountain ranges and near the scene of three famous hold-ups, the train smashed into a big pile of rocks and crossties that had been driven in between the rails. The incident happened near the small station of Hooper, and being a local train and slowing up at the time to let off a single passenger, is the only explanation of why the train was not derailed. The flyer's schedule time is forty-five miles an hour. The trainmen reported that two suspicious characters who got on at McNeill left the train when it stopped at Hooper and have not been seen since. The railroad people have been expecting a hold-up for several weeks now, owing to the fact that a great deal of gold is being shipped to and from Mexico, and have taken the precaution of having an armed guard go out and return on every through train operating through the dangerous country.

Daylight Cracksmen

Pittsburg, Nov. 10.—At an early hour Sunday afternoon the office of Walker & Straman, soap manufacturers on Hierr Island, was looted by burglars. Two of the four safes in the office were dynamited, about \$600 stolen and fully \$6,000 damage done to the building. The office building is some distance from the manufactory proper, which enabled the burglars to do their work unmolested by the watchman and the dozen or more workmen who were in the factory. No clue to the robbers has been found.

Express Company's Liability

New York, Nov. 10.—The supreme court has handed down a decision that an express company may not limit its liability for property lost through its negligence, because of the statements on its printed receipts that it will not be liable for any sum exceeding \$50. The decision was rendered in an appeal from a judgment rendered in favor of Jacob C. Simon against Dunlap's Express company. Simon sued for \$250, the value of a pair of lace curtains, and secured judgment.

Plenty of Blood

Mexico City, Nov. 10.—The winter bull fighting season opened Sunday afternoon, the first fight being attended by a large crowd, including many Americans. The sensation of the spectacle was the serious horning of Parrao, one of the matadors, by the third bull. Parrao received a deep wound in the abdomen and may die. The fight was not interrupted. Ten horses were disemboweled.

Fatal Family Row

Marne, Ia., Nov. 10.—In a family row here Saturday night, L. J. Giles was shot and perhaps fatally wounded by his son. Giles and his wife were divorced a number of years ago, but were recently remarried, and Saturday night trouble broke out anew. Giles started in to exterminate his family, when the older son shot the father twice.

Will Not Rebuild

Springfield, O., Nov. 10.—The home for the aged, maintained by the Cincinnati conference of the M. E. church at Yellow Springs, caught fire at 7:30 o'clock Sunday morning while the twenty-seven aged residents were at breakfast, and was totally destroyed, at a loss of about \$18,000. It will not be rebuilt.

Boy Routed Burglars

Rising Sun, Ind., Nov. 10.—Three men entered the postoffice here and wrecked the outer door of the safe, when a boy, seeing a huggy in the street, blew a policeman's whistle. This alarmed the burglars, and they fled without getting into the inner safe.

WOMEN TAKE A HAND

An Effort to Clarify Kokomo's Moral
Atmosphere That May Prove
Effective.

Women Make the Rounds on Sunday
and Many Affidavits Have
Been Filed.

Kokomo, Ind., Nov. 10.—The recently organized Women's Missionary Society, whose purpose is to elevate the morals of the community, has begun work. As a result of several "slumming" tours, in which the rounds of the saloons were made yesterday and the Sunday before, affidavits have been prepared against about twenty saloon keepers for violations of the Sunday law. The women found the back doors of nearly all the drinking places in town open. They entered the resorts and satisfied themselves that the law was being violated. On information furnished by the women crusaders Deputy Prosecutor Willits prepared warrants for the arrest of the offending publicans. The women declare that violations of the saloon laws must cease. They are also after the houses of ill repute and gambling joints.

BOLD, BAD "INJUN"

Effective Disguise of Burglar Who
Raided Village Store.

Kokomo, Ind., Nov. 10.—An unknown man, single-handed, held up five persons in the store of A. J. Rhodes at Oakford, four miles south of here. The robber was disguised as an Indian, with a painted face. He rushed in with a war whoop and a big revolver, shooting out windows and mirrors. All the store loungers threw up their hands and the robber secured over \$100 from Rhodes and escaped. Rhodes was the "it" of the village, being postmaster, merchant, ticket agent and justice of the peace.

Wife Wouldn't See Him

Marion, Ind., Nov. 10.—The body of J. E. Hollowell, the Marion building contractor who committed suicide at Toledo, was brought to this city Sunday for burial. Hollowell killed himself by firing a revolver bullet into his right temple. He and his wife separated in Marion a few weeks ago and she went to the home of her parents to live. Hollowell called at the home of his wife's father in Toledo and asked to see her. This was denied, and as the door was closed the report rang out and Hollowell was found bleeding from a wound in the temple. He died a few hours later.

Burned to Death

Summitville, Ind., Nov. 10.—Arthur Webster, twenty-eight years old, the son of Daniel Webster, one of the wealthiest farmers in the county, was burned to death in a fire which destroyed his barn. He arose early to superintend the feeding of the stock, and went to the cow-barn with a lantern. The barn was filled with fodder, and soon after he entered flames were discovered issuing from the openings. Efforts were made to put out the fire, but availed nothing. When Webster's body was recovered the head, arms and legs had been burned off.

Aged Woman Killed

Lafayette, Ind., Nov. 10.—Mrs. Elizabeth Slattery, aged about seventy years, was instantly killed at the Columbia street crossing of the Wabash railroad by the fast eastbound passenger train, known as the Continental Limited. The aged woman was on her way to St. Mary's church and walked upon the track just in front of the train, which was running very fast. She is the widow of the late Thomas Slattery, and the family is well known in this city.

Caught Foot in Trigger

Aurora, Ind., Nov. 10.—Geo. Schipper, aged thirteen years, son of Frank Schipper, a shoe merchant, while out hunting Saturday afternoon, was instantly killed. He had placed his gun against a fence, and as he was climbing over the rails his foot caught in the trigger, discharging the weapon. The full contents of the gun entered under the boy's chin and came out through the top of his head.

Brakeman Crushed

Elkhart, Ind., Nov. 10.—Samuel Bird, a Big Four freight brakeman, received fatal injuries, being crushed while trying to make a coupling standing on the inside of a curve. He was thirty-four years old and left a widow and one daughter.

New Indiana Factory

Ingalls, Ind., Nov. 10.—A syndicate of Chicago, Cincinnati and Baltimore capitalists is organizing a company with a capital of \$150,000, for the manufacture here of a non-refillable bottle.

Died of His Wound

Muncie, Ind., Nov. 10.—Louis Denny, who was fatally shot while hunting south of Muncie, died shortly after being removed to the hospital.

CHANGE IN ARMY

Gen. MacArthur Now Stationed at
Chicago.

Washington, Nov. 10.—Major General Arthur MacArthur has been relieved from the temporary command of the Department of the East at New York and ordered to return with his authorized aids to Chicago and resume command of the Department of the Lakes, temporarily in command

GENERAL ARTHUR MACARTHUR.

of Brigadier General Bates. This change is in accordance with an arrangement made several months ago by which Major General Chaffee was to assume command of the Department of the East on his return from the Philippines. General Chaffee is expected to arrive at San Francisco in a day or two and will proceed at once to New York. Pending his arrival there Colonel Barry will exercise command of the Department of the East, under the direction of the lieutenant general commanding.

DOMESTIC TRAGEDY

In Self Defense a New York Woman
Kills Her Husband.

Binghamton, N. Y., Nov. 10.—Mrs. Enoch Hink shot and killed her husband at their home, about three miles above Port Dickinson, Sunday morning about 4 o'clock.

Hink was fifty-one years old, his wife is forty. They have been married twenty-three years. For some time Hink has been jealous of a nephew, Frank Hink, who has boarded at the Hink home. Saturday Mr. and Mrs. Hink and Frank Hink came to Binghamton. Mrs. Hink and Frank drove home alone. About 2 o'clock Sunday morning, Hink, who had arrived home some time previously in an intoxicated condition, quarreled with his wife and made an assault upon her. She ran out of doors in her night-dress, barefooted, and pursued by her husband, ran down the road. He was armed with a clasp-knife. Finally in the darkness Mrs. Hink eluded him and, going back to the house, barricaded her bedroom. Hink went back and when he tried to open the door to renew the assault, the woman took up a shotgun and pointed it at her husband. It was discharged, the charge entering Hink's breast, just above the heart. He died in a few minutes.

Wreck in Fog

Huntington, W. Va., Nov. 10.—The Norfolk & Western fast express No. 4, bound from Columbus to Norfolk, W. Va., had a head-on collision with an extra freight train Williamson Sunday. Owing to a heavy fog the engineer of the passenger train failed to see the signal, and when the collision occurred his train was running near 50 miles an hour. John Snyder of Plattsburg, Va., express messenger, was instantly killed, and two engineers were seriously hurt.

JUST IN TIME.

A motorman in Chicago ran his car into the approach of an open bridge but stopped it with the fender actually overhanging the gulf below. He wouldn't want to repeat the experiment because the chances are that he'd never again have the same good fortune.

Once in a while some one who has traveled to the very edge of the danger line of stomach disease stops just in time to save his health. But the majority of people go across the line, and slight symptoms of indigestion grow to disease of the stomach, involving the other organs of digestion and nutrition. The first symptom of indigestion should receive prompt attention. Indigestion and other forms of stomach "trouble" are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It strengthens the whole body by enabling the perfect digestion and assimilation of food.

"I have been suffering for about eight years," writes Mrs. H. Pierce, of Millersburg, Ky. "I have had several doctors to treat me—some for female weakness and others for stomach trouble, but received no relief. When I wrote you for advice I was hardly able to work and you advised me what to do. I began to take your medicine and the effects have been good. I was under the doctor's care every summer before this. I took nine bottles, five of 'Golden Medical Discovery,' four of 'Favorite Prescription,' also two vials of the 'Pelleus.' Dr. Pierce's medicines will do all that you claim for them. Believe I would have been in my grave if I had not taken them."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach. FREE. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Pound to a Grain,

Is what this grocer is telling an inquiring customer. "Yes, Madam, this is just one of the little details that have made Chase & Sanborn's Coffees famous everywhere. This can, as you see, is one of the pound cans that contain their Seal Brand Coffee. You will notice that the contents weigh exactly one pound to a grain. They have a machine that weighs this to the most minute accuracy."

Chase & Sanborn's High Grade Coffees.

Every bean of Coffee sold by Chase & Sanborn comes from coffee plantations that are famous for the crop of berries that they raise—then too, every grain is selected by experts, roasted by experts, packed and handled by experts, so it reaches the consumer as near perfect as it is possible. Insist on your grocer giving you Chase & Sanborn's Coffees if you would have pure coffee; that is the best, no matter whether you buy their Seal Brand or any one of their high grade coffees which come in richly colored, parchment-lined, imported bags. The fact that Chase & Sanborn's Seal and name stands behind their coffees is a sufficient guarantee of superiority.

KNEW GENERAL GRANT.

Mrs. B. A. Ruddick Attended His Wedding Reception.

A few days ago Louis Ludlow, staff representative of the Indianapolis Sentinel, was in Seymour. He gathered material for a letter which was published in Sunday's Sentinel. In this he speaks briefly of Mrs. B. A. Ruddick's acquaintance with the Grant family. He says: "Gen. U. S. Grant was noted, among his other characteristics, for the very brief speeches which he made on public occasions. A story in point is told by Mrs. Barbara Ruddick, an estimable lady belonging to a first-class family, who lives in the country with her sons five miles from Seymour. She grew up in Bethel, O., and her father's family and the family of Gen. Grant were 'next door neighbors' and quite intimate. Mrs. Ruddick's maiden name was Barbara Carr and she and Mollie Grant, sister of Gen. Grant, were playmates and schoolmates. Nearly fifty-five years ago Grant was married to Miss Julia Dent in St. Louis, and after the wedding he took his bride to Bethel, where a reception or 'infair' was held at his father's house. Grant was then a captain in the United States army and was considered in the village a man of a good deal of importance. The reception was attended by the elite of Bethel and one of the features was a banquet. When all were standing around the table a local celebrity made an elaborate speech of welcome, to which, according to Mrs. Ruddick, Capt. Grant responded as follows: 'Ladies and gentlemen, friends and fellow citizens—I am right glad to see you all. Now let us eat.' Mrs. Ruddick sat by the side of Grant during the banquet.

MONDAY NOVEMBER 10, 1902.

Two years ago Griffith had a majority of 1022 in Jackson county. This year his majority over Spencer is 618.

For surveyor two years ago Robertsons had a majority of 919, but this year his majority over Slagle is only 564. Quite a fall down.

Look over the official vote and you will find that Benj. F. Schneck made a splendid race for representative. Two years ago Jonathan Robertson was elected representative by a majority of 932. This year his majority is only 579, a republican gain of 353.

FRANK FALK for treasurer, and Charles F. Robertson, for recorder, reduced their opponents majorities down to almost nothing. They proved themselves strong men before the people and came near wiping out entirely the old democratic majority of over 1000 in Jackson county.

LACK of time and space prevents an analysis of the victo cast for every candidate in the county at the recent election. Suffice it to say that every man on the republican ticket made a good race. More than that all of them are worthy men, and had they been elected they would have served the people faithfully and well.

AN analysis of the vote cast for prosecuting attorney, like that cast for other republican candidates in Jackson county, reveals some very interesting facts. Two years ago Sim Hudson carried Jackson county by a majority of 965. This year his majority is only 367 in the county, a loss of 598. John M. Lewis made gains in every precinct in the county and carried Jackson township, his home township by 190, and Hamilton township by a majority of eight. Hamilton township gave Hudson a majority of 86 two years ago. Lewis carried Vernon township by ten which township went democratic on the state ticket by seventeen. Similar gains were made in other townships. In Washington county, Hudson's own county, he (Hudson) ran behind the state ticket 127 votes, his majority in Washington being only 362, against 489 for the state ticket. Mr. Lewis carried Orange county by a majority of 298, being the second man on the local ballot, only Mr. Charles, the candidate for treasurer receiving a larger majority. In the district Hudson has a majority of only 331. Two years ago he carried the district by a majority of nearly twelve hundred. These figures show that Mr. Lewis made an excellent race.

The victory of Congressman Hemenway in the First district by nearly 2000 majority was most remarkable. The great victory was due to the fact that Mr. Hemenway has served his district with distinction for so many years. If after a sharp fight in the convention some new man had been nominated by the republicans the chances for success would have been much lessened. When Indiana republicans learn to nominate their congressmen as is done in Maine and Iowa, than Indiana will be just as safely republican as those states.

Addresses of interest.

Under the auspices of the B. Y. P. U. of the First Baptist church, of which Wade Bryan is president, a series of addresses have been planned which ought to attract general interest among Christian people. Each of several denominations, through the pastor of the local church, is to set forth its history and doctrines—to explain what it stands for and why it exists, in an address. Invitations to this end have been accepted. These addresses will be given in the Baptist church as follows:

Nov. 18, what the Methodist Episcopal church stands for—Its History and Doctrines. Rev. E. R. Vest, D. D.

Nov. 25, What the Presbyterian church stands for—Its History and Doctrines. Rev. Dr. E. C. Jacka.

Dec. 2. What the Christian church stands for—Its History and Doctrines Rev. J. W. Moody.

Dec. 9, Denominational Margins, Rev. W. C. Martin.

A Large Funeral.

The funeral of the late Judge Applewhite at Brownstown Sunday was one of the largest ever held in the county. Friends came from all parts of the county. The funeral discourse was preached by Rev. C. C. Bonnell. The Masons took part in the services. Quite a large number were present from Seymour. About all the Seymour lawyers, a large delegation of Masons, some old soldiers and many others went down, among them being J. H. Hodapp and wife, Daniel Jenkinson, B. F. Price and wife, S. E. Carter and wife, J. W. Conner and son, Ben Carter and son, Mrs. E. W. Donaldson, Mrs. C. M. Ingram, H. C. Johnson and wife, Paschal Carter, Tip Bennett, Will Hustedt, Miss Maude Hamer, W. J. Durham, C. E. McCrady, G. H. Anderson, J. H. Matlock and wife, D. A. Baird, D. H. Brown and wife and many others.

A Strong Sermon.

A large audience greeted Presiding Elder Baxter at the Methodist church Sunday night. His sermon was founded on John 3:16, and was a strong and forcible presentation of the atonement made by Jesus Christ for the salvation of the world. Many favorable comments have been made today in regard to it. After the sermon about two hundred persons took the Holy Communion.

Mrs. J. H. Matlock went to Medora today to visit her daughter, Mrs. Hunsacker.

Mrs. C. E. Wareing, after spending a few days with her parents, Mr. and Mrs. J. H. Matlock, returned to Plainfield today.

Henry Bruning will move from Brownstown to the place he purchased of G. A. Robertson, northeast of Seymour.

Tamed By Cold Weather.

Ottawa, Ont., Nov. 10.—A telegram from Frank Pedley, superintendent of immigration, who is at Yorkton with the Doukhobors, says all the pilgrims were entrained at Minnedosa and that Yorkton was reached at noon Sunday. The Doukhobors started for their villages today. The cold weather had its effect on the pilgrimage, and the Doukhobors are being induced to return to their homes peacefully.

Brakeman's Horrible Death.

Lexington, Ky., Nov. 10.—Ernest Armstrong, a married brakeman, met a horrible death in the yards here Sunday. In descending from a moving freight car the step broke and he fell astride the rail. The car-wheels divided his body from the chin down, half rolling from the track and the other half mangled to pieces.

THE VITAL NECESSITY

There is no other one thing with which I have so much trouble as this lack of persistency among advertisers. They lack the nerve to fight long and hard. While they will expend a good deal of cash and energy in making a single plunge, they will grow tired if called upon to expend the same amount through a campaign of six months.

The road to success is an uphill road all the way. Do not try to sprint.

For a little way it goes easy, and you get over the ground fast, but the goal seems all the farther away when the nervous energy in that sprint is spent. There are but 40 per cent of advertisers who make their advertising pay.

The rest never learned that persistency in advertising is the one vital necessity.

They jumped into advertising without preparation in the way of the money to meet the expense or the experience to keep from wasting it. They failed to consider that the creation of trade through advertising was a long process.—Inland Printer.

Successful merchants use our columns persistently.

A PROBLEMS OLVED.

Another Gordian Knot Cut.

A Discovery Invaluable to the Science of Medicine.

An Invention that Will be of Benefit to Thousands of People.

There is no doubt about the value of Vinol, this new form of cod liver oil, concerning which so much has been said lately. It is just another one of those great inventions that is bound to revolutionize a certain branch of science. This time the science is that of saving lives. Hence the greater good that will be derived from this discovery.

Mr. Peter of the W. F. Peter Drug Co., of this city, who so fortunately succeeded in associating himself with the prominent Boston firm, has indeed made his name one that will never be forgotten in our city. His foresight and shrewdness enable him to take advantage of what has proved to be a most wonderful blessing to all who are in need of medicine for the cure of throat, lung and bronchial troubles, as well as wasting diseases of every description.

This Vinol is simply cod liver oil in a new form, cod liver oil without any oil, paradoxical as the statement may sound. In other words, as Mr. Peter explains it himself, Vinol is the concentrated essence containing all the active medicinal principles found in the liver of the live cod, without any of the objectionable features that were formerly extracted at the same time, such as fatty matter. The extract which is the basis of Vinol becomes tasteless, administered as it is in a delicate table wine. The efficient manner in which it acts is really wonderful. Physicians are now able to prescribe for patients Vinol where it would have been impossible a short time ago to have recommended cod liver oil on account of the depleted condition of the patient's digestive organs.

This has always been a drawback that has prevented more cures being effected where cod liver oil has been indicated. Patients are now able to take this medicine without the slightest inconvenience. In fact, to take delicious Vinol is a pleasure. Its beneficial effect is most gratifying.

It is not often we believe it our duty to expatiate so fully on a subject, but this is one that will admit of careful investigation by all, for it is indeed of the gravest importance that every one should become conversant with a remedy that is so often needed in our bleak climate.

The Little Wonder Air Tight Wood Heater

Just the thing for a quick fire these cold mornings. Will hold fire longer than any other stove made. You get more heat from fuel consumed in these stoves than in any other make.

HERE'S A BARGAIN:

HEATER 30 in. long 17 in. wide, 39 in. high from floor to top **\$2.00**

Seymour House Furnishing Company, F. VOSS, Manager.

Printing by the Republican.

IT is interesting to see how fast good news travels. Grocers say that when they sell Chase & Sanborn's Seal Brand Coffee into a household, it is only a few days before all the neighbors are using it. You can gauge the enthusiasm by the speed of the new orders. They try it, buy it, and cry it abroad. Every can sells two or three more. Really, it is worth while to try Seal Brand Coffee. The first taste is a new experience in coffee drinking.

In 1-lb. and 2-lb. Tin Cans (air tight). Other high grades in richly colored parchment bags (moisture proof).

Can be had only at the Model Grocery.

TUESDAY NOVEMBER 11, 1902.

SENATOR BEVERIDGE chairman of the senate committee on territories, together with other members of the committee are on a journey through the territories of Oklahoma, New Mexico and Arizona, to investigate and prepare a report on the advisability of admitting these territories as states. They will be gone about three weeks.

SINCE all returns are in, becomes apparent that the Fourth congressional district did her full share towards success. Substantial gains were made in nearly every county in the district except Jefferson, and that was due wholly to local troubles. Very similar was the republican slump in Lawrence which defeated a republican congressman in the Second district. When it comes to the distribution of federal state patronage, Jefferson and Lawrence counties should not be preferred over other counties of the two districts.

The only famine that threatens the country is a deficiency in locomotives and cars to handle the traffic, the transportation being 50,000 cars in excess of the supply, and yet the railroad companies expended \$200,000,000 on equipment in 1901, and the expenditure for that purpose the present year is estimated at \$250,000,000. During the past two years, 150,000 cars were built, and all the shops in the country cannot fill the orders. The sum expended for power and equipment the past year is over \$1,000 a mile for every mile of railroad in the United States.—Journal.

Quail Law Boiled Down.

The following is an epitome of the quail law now in force in this state: It is unlawful: To kill more than twenty-four quail in any one day; to sell or offer for sale directly or indirectly at any one time or at any place any quail; to hunt upon any inclosed land without first obtaining the written consent of the owner or tenant thereof; to hunt on Sunday; for any non-resident to hunt within the borders of the state without first procuring a \$25 license; to export or import quail. These laws are regarded as excellent in that they tend to work for the propagation and preservation of Indiana's most highly prized game bird, and it is a notable fact that the several game wardens throughout the state are enforcing them to the letter.

A Thanksgiving Dinner.

Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membranes lining the stomach, expose the nerves of the stomach, producing a swelling after eating, heartburn, headache, sour risings and finally catarrh of the stomach. Kodol relieves the inflammation, protects the nerves and cures the catarrh. Kodol cures indigestion, all stomach troubles by cleansing and sweetening the glands of the stomach. Pellens' drug store and Peter's drug store.

A Policeman's Testimony.

J. N. Patterson, night police of Nashville, Tenn., writes, "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." All druggists.

BY OUR FRUITS,

We Should be Better Known.

While in elevation, exposure, quality of soils and other physical conditions, most of the lands in this immediate vicinity are well adapted to horticulture, Jackson county ranks below many others, no more favored by natural advantages, in the extent, variety and quality of its fruit products. This unfavorable condition is due in most part to indifference and want of enterprise, the natural result of a lack of good understanding of the needs and benefits of this distinct feature of farm industry.

On this subject our farmers need an awakening. The demand is for a campaign of education along this particular line. At our next County Institute it would be very helpful to the farmers to have at least one entire session devoted to horticulture. Another good opportunity to learn from some of the best horticulturists in this and neighboring states, how and why they have been successful, will be afforded by the annual meeting of the Indiana Horticultural Society at Indianapolis, December 34, 1902—a conference that, we are well assured, you will find it both pleasant and profitable to attend.

JOHN AULD FORSYTHE.

Cured of Piles After 40 Years.

Mr. C. Hauey, of Geneva, Ohio, had the piles for forty years. Doctors and dollars could do him no last log good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits. Pellens' drug store and Peter's drug store.

H. C. Dannettell resigned as deputy game warden in this county about two months ago. We mention this for the reason that many people do not know that he has resigned and continue to hunt him up and make reports. When Mr. Dannettell resigned he had a personal letter from Hon. Z. T. Sweeney complimenting him on his good work. Who his successor in this county is Mr. Dannettell does not know, but it is believed that some violators of the law will find out when court convenes.

We Request The Pleasure of Your Company

At our drug store as often as you need any article which we handle, and we handle all goods usually carried in the best modern drug stores. We want you to feel at home in our store. We want you to become so well acquainted with our entire store that you will have confidence in our prescription work, and in the quality of every drug, chemical, or article that we offer you. We know that our goods are right and that our methods are right and that our prices are right. Consequently, we invite the closest knowledge on your part, for then you will become a regular customer at our store, we are sure. No matter whether it's a penny article, or a 5c. article, or a 10c. article, allow us to supply you. No sale can be too small to interest us. In other words, we want to be "Your Family Druggist," just as a physician is "Your Family Doctor." In that way we can serve you to your own best satisfaction.

AN IDEAL SHOPPING PLACE

Is found here. Ladies will appreciate hat on their first visit to the store.

The stock of goods carried is particularly well assorted and being selected with great care the design workmanship and finish of the various articles of

Jewelry offered is highly pleasing.

There's a very pleasing line of little novelties in Gold, Silver and other metal. They are not expensive, but add much to the charm of a costume.
